application for which appli	cant seeks approval as Medica	I Physics Expert	
Medical Physics Expe	t Area		
Diagnostic Radiology			
Radiotherapy			

Requirement 1: Continued Active Employment

A new Medical Physics Expert applicant needs a minimum of 24 months experience in the preceding 28 months and post the award of the MSC certificate, in the practice area that the individual is applying for. For reapproval, an applicant needs a minimum of 48 months experience in the preceding 5 years

List the total number of months of active employment in a radiation related area by adding all the months in active employemnt claimed in the positions below.

Months

Summary of work engagements

Use this page and the following page as necessary to document your continuing active employment. This can also include any part time work. For each engagement, you are required to name an individual who can supply verification of occupational activities and has knowledge of your job functions.

Note: For part time work: 1 Month is equivalent to 170hrs

Requirement 2: Points

The demonstration of an effort to keep up to date, contribute to knowledge, or maintain continued growth in the areas the individual is approved in, by obtaining the minimum points required in document DOC 54, by engaging in one or more of the seven categories below.

If needed, each page can be photocopied in order to add additional activities within each category.

Supporting documentation is required for all points claimed. All supporting documentation shall be keyed by section number to the proper section of the application and attached to the back of this application.

A. Regulatory Learning Activities

1.1 Attending a national meeting on radiation protection legislation in Malta that has been notified to the Commission

Appropriate documentation: attendance certificates.

Notes on filling in the table below:

Document Number: The number written down should be marked on the verification document/s supplied.

Training Course: The name of the training course or workshop.

Document Description: State what kind of document is being attached, eg. Certificate of attendance, examination

result, letter of verification etc..

Number of Points: Write the number of points from the list provided in Annex 1 for each activity.

Doc. No.	Event	Cat. No.	Document Description	Number of Points
1a				
1b				
1c				
1d				
1e				

Total Number of points for this category.

B. General Learning Activities

- 2.1 Attendance at international, radiological meeting
- 2.2 Attendance at, national radiological meetings of professional societies
- 2.3 Attending a radiation related course/workshop organised within an undertaking
- 2.4 Online virtual real-time radiation related meeting or presentation
- 2.5 Planned self-directed radiation related learning, e.g computer-based e-learning.
- 2.6 Visits to overseas departments for special training
- 2.7 Membership of medical physics related body, committee, working group or official sub-committees
- 2.8 Formal non-radiation safety related on the job training activities and experiences, e.g. development of interpersonal skills, time management etc.

Appropriate documentation: attendance certificates, pass certificates of examination taken during courses, letters of enrollment etc.

Notes on filling in the table below:

Document Number: The number written down should be marked on the verification document/s supplied.

Training Course: The name of the training course or workshop.

Document Description: State what kind of document is being attached, eg. Certificate of attendance, examination

result, letter of verification etc..

Number of Points: Write the number of points from the list provided in Annex 1 for each activity.

Doc.	Event	Cat.	Document	Number

Total Number of points for this category.

C. Practice Activities

- 3.1 Documented advice to undertaking on regulatory obligations related to medical exposures
- 3.2 Documented contribution to the development of the radiation protection programme within an
- 3.3 Documented example of the development of safety culture within an organisation
- 3.4 Documented example of optimisation of the radiation protection of patients and other individuals subject to medical exposure, including the application and use of diagnostic reference levels
- 3.5 Development of quality assurance programmes of the medical radiological equipment
- 3.6 Development of testing protocols for medical radiological equipment
- 3.7 The preparation of technical specifications for medical radiological equipment and installation design
- 3.8 Development of new technique in medical exposure
- 3.9 Incident report of events involving, or potentially involving, accidental or unintended medical expsures exposures
- 3.10 Training of practitioners and other staff in relevant aspects of radiological aspects of medical exposures
- 3.11 Preparation and delivery of formal lectures or seminars, first presentation
- 3.12 Repeat delivery of formal lectures or seminars.
- 3.13 Supervision and mentoring of physics staff
- 3.14 Publication of a paper in a recognised scientific journal
- 3.15 Oral or poster presentation at a congress

Appropriate documentation: The first page of the article or paper is adequate, provided that the title, the author(s), name(s) and the name and date of the publication appear. Official membership certificate, letters of appointment etc.

APPENDIX 1

The list below outlines seven (7) different activities that, if carried out, will award points towards the Continuing Professional Development of an individual aspiring to become approved as a Medical Physics Expert or for subsequent re-approval. An individual will have to meet the number of points required for each practice as listed in document DOC 54

An individual approved as a Medical Physics Expertt in one area of practice and who wishes to become approved in another area can use the number of points acquired in the approved practice area towards his application in another practice area. Similarly, an individual applying for multi practice area, will only need the number of points of that practice area that carries the maximum number of CPD points.

			Max per year	Max per 5 years	Minimum Points in 5 years
A	Regulatory Learning	1 Attending a national meeting on radiation protection legislation in Malta, Such meetings be notified to the Commission 2 points per hour	8	20	15
В	Learning	1 Attendance at international, radiological meeting 2 points per hour	15	25	
		2 Attendance at, national radiological meetings of professional societies 1 point per hour	4	10	
		3 Attending a radiation related course/workshop organised within an undertaking. 0.5 point per hour	4	10	
		4 Online virtual real-time radiation related meeting or presentation 0.5 point per hour	4	10	
		5 Planned self-directed radiation related learning, e.g computer-based e-learning. 2 point per topic	2	10	30
		6 Visits to overseas departments for special training 4 point per day	12	20	
		7 Membership of medical physics related body, committee, working group or official sub-committees 2 points per year	2	10	
		8 Formal non-radiation safety related on the job training activities and experiences, e.g. development of interpersonal skills, time management etc. 1 point per topic	2	10	
С	Practice	Documented advice to undertaking on regulatory obligations 1 related to medical exposures 2 points per documented activity	4	20	
		Documented contribution to the development of the radiation protection programme within an undertaking 2 points per documented activity	4	12	
		Documented example of the development of safety culture within an organisation points per documented activity	4	12	
		Documented example of optimisation of the radiation protection of patients and other individuals subject to 4 medical exposure, including the application and use of diagnostic reference levels; 2 points per documented activity		24	

	Development of quality assurance programmes of medical
